

Superscope™ II

NON-AMMONIATED STRIPPER

PRODUCT DESCRIPTION:

Superscope™ II is a fast-acting non-ammoniated stripper that will remove all types of finishes and most sealers; acrylics, co-polymers types, metal-crosslinked or conventional. Specifically formulated for removal of even the worst build-up, this concentrated combination of powerful ingredients assures complete emulsification and removal of aged finish and sealer. Removable problems caused by repeated high speed burnishing will be solved using Superscope™ II.

Use Superscope™ II for the removal of any floor finish or sealer that has been applied over resilient tile such as vinyl, vinyl composition, rubber, etc. This product is also recommended for use on hard surfaces such as terrazo, quarry tile and brick. **DO NOT USE** on linoleum, asphalt tile, or tile in poor condition.

FEATURES:

Powerful General Use Stripper:

Easily removes all types of finishes and most sealers - even in areas of extensive build-up, or where repeated high speed burnishing has made removability a problem.

Liquid Concentrate:

One gallon of Superscope™ II diluted 1:8 will strip up to 4000 square feet, keeping your chemical costs low.

Pleasant Scent:

This non-ammoniated stripper is especially useful in confined areas or where ammonia odor is objectionable. Superscope™ II will improve labor productivity in stripping operations

Controlled Sudsing:

With controlled sudsing and rapid suds break, Superscope™ II keeps wet-vacs and autoscrubbers operating at peak efficiency, assuring maximum solution pick-up capacity.
