

UHS COMBO CLEANER/MAINTAINER

Product Description:

UHS Combo Cleaner/Maintainer is a revolutionary, labor saving product. Designed for daily use on resilient and hard floor surfaces. Revitalizes the finish base, builds gloss and reduces labor cost by eliminating the use of multiple products (traditional cleaners and restorers) and additional steps (separate deep cleaning and restoration steps). Packaged for use exclusively in the innovative, TRUMIX® Chemical Management System.

Features:

Revitalizes:

Restores flexibility to the finish, allowing it to respond to burnishing and resulting in improved performance. Leaves the floor with a “just finished” appearance.

Reduces Labor:

Reduces the frequency of stripping and scrub/recoating to save significant time and labor. Cleans and maintains the floor finish without trapping dirt which can build up and discolor the floor finish.
